Port Talbot
SA13 1RA

Variation application number
EPR/ZP3032KQ/V003

Permit number
EPR/ZP3032KQ

Afan Combined Heat and Power Facility

Permit Number EPR/ZP3032KQ

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is a minor technical variation to include an additional abatement measure for treating aerial emissions at the site. All relevant management and operational techniques relating to operation of the new siloxane scrubbing equipment have been included as operating techniques within Table S1.2 of the permit.

The addition of the siloxane scrubbing plant does not require changes to any other existing condition. Therefore, no further changes have been made to the permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Permit determined EPR/ZP3032KQ/A001	26/05/10	Permit issued to Dwr Cymru Cyfyngedig
Environment Agency variation determined EPR/ZP3032KQ/V002	27/03/13	Environment Agency initiated variation to implement changes introduced by the Industrial Emissions Directive (IED) 2013
Variation application EPR/ZP3032KQ/V003	Duly Made 29/08/13	Application to include abatement process for the removal of siloxane
Variation determined EPR/ZP3032KQ/V003	19/02/14	Variation issued.

End of introductory note
