NOTICE OF MODIFICATION OF WASTE MANAGEMENT LICENCE

Licence Number:**EAWML/37202****Licence Holder:****S.I.T.A Wastecare Limited**

WHEREAS on 31st January 2000 a Waste Management Licence was granted under Part II of the Environmental Protection Act 1990 (number EAWML/37202) by Environment Agency Wales relating to a Civic Amenity Site, Colomendy Industrial Estate, Denbigh (Grid Reference SJ 055 671).

NOTICE is HEREBY GIVEN that the Environment Agency in exercise of its powers under Section 37 (1)(a) of the Environmental Protection Act 1990 modifies Waste Management Licence No: EAWML/37202 as follows:

See attached schedule of licence conditions.

Such modification shall take effect from 00:00 Hours, 1st November 2001.

Signed Clare Walters

Name: CLARE WALTERS

Team Leader Waste Licensing – Northern Area (Welsh Region)

Dated: 31st October 2001

**YOUR ATTENTION IS DRAWN TO THE RIGHTS OF APPEAL DETAILED IN THE NOTES AT THE END
OF THIS NOTICE OF MODIFICATION**

SCHEDULE

The following condition shall be modified in schedule 2 of licence Number EAWML/37202

Condition 4.8

The original condition read:-

4.8 Storage of waste

- 4.8.1 Waste shall only be stored in areas designated in accordance with section 4.0 of the working plan.

The new condition shall read:-

4.8 Storage of waste

- 4.8.1 Waste shall only be stored on the site in accordance with section 4 of the working plan and the standards specified in Table 4.8 below.
- 4.8.2 Except where otherwise specified in this licence no waste will be stored outside of the designated containers.

Clare Walters

Table 4.8	Storage limitations on wastes with specified characteristics
Solid wastes which do not consist solely or mainly of dusts, powders or loose fibres, but which when handled are likely to generate significant quantities of dusts, fibres or particulates.	• stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan.
Odorous wastes, including wastes which are likely to be odour producing during storage	• stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan.
Solid wastes which are likely to produce contaminated or polluting run-off.	i) Inert wastes. • stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan. ii) General and biodegradable and contaminated general wastes • stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan.
Wastes which are in a form which is either viscous/pasty, sludge or liquid.	• stored in liquid-retaining, covered containers; • stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan.
Combustible wastes	• stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan, and with access to fire fighting equipment.
Wastes which are likely to attract pests	• stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan.
Wastes which include light wastes or other wastes liable to give rise to litter	• stored in suitable containers and in areas provided with engineered containment and drainage systems as described in sections 3.5 & 3.7 of the working plan.
