Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation is to increase the permitted boundary of the site, increase the annual throughput to 9,999 tonnes and add in additional waste codes and encompasses a regulator-initiated variation to update conditions relating to fire risk mitigation.

No other changes are to be made to the permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
