Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

SCHEDULE 3 TABLE S3.2 of the permit specifies a bio aerosol limit containing 1000cfu/m3 total bacteria.

The permit limit for Mesophilic bacteria was exceeded on the 10th May 2017 at SP2. The reading was, 5889 cfu/m3. The permit limit is 1000cfu/m3 which constitutes a fivefold breach of permit limit and therefore attracts a CCS3 score.

Measures are in place through the agreed Compost Action Plan to address these issues. Monitoring should continue as scheduled
