Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	**CCS Category**	**Condition(s) breached**

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.
A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,
O = Ongoing non-compliance, not scored.

Number of breaches recorded	**0**	**Total compliance score** (see section 5 for scoring scheme)	0

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Routine unannounced site inspection carried out by Environment Officer Rhys Thomas. Accompanied on site by TCM Kevin Davies. Visit was used as familiarisation for Rhys Thomas who is now taking over as lead regulator for the site. Contact details are provided below.

Weather at time of inspection was dry and sunny. Site was busy at the time with waste being accepted on site and waste sorting activities being undertaken. There is currently a large amount of inert material stockpiled on site. This is currently going out to a site benefiting from a U1 exemption. Other sorted wastes were stored in designated bays and containers on site. There were a few skips of mixed waste stored on site that were due to be tipped and processed.

No issues were noted relating to dust, noise, odour, litter, pests or vermin whilst on site.

Site inspection check sheets were inspected in the site office. These were complete and up to date.

You have previously been notified following a review of waste return data earlier this year, that annual tonnages for both 2014 and 2015 had exceeded the total permitted quantity of 5000 tonnes a year. It was discussed during the visit that you intend to proceed with a permit variation to increase the annual tonnage allowance. Consultants have been appointed to prepare a permit variation application.

If you would like to discuss anything mentioned in this report, please contact Rhys Thomas on 03000 65 3765, rhys.thomas@cyfoethnaturiolcymru.gov.uk

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.
Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
