Dear Mr Whittingham

Pig and Poultry Assurance Scheme: Compliant inspection
Farm Name: Lower Pentwyn Environmental Permit Number: XP3436ME

Thank you for taking part in the inspection by your Farm Assurance Certification Body, on 12th June 2013.

I am pleased to confirm that at the time of inspection you were compliant with your permit.

For information, the following breaches were assessed by your Certification Body as 'requirement not met', but we have assessed them as compliant as detailed below:

- *Permit condition 3.1 – Point source emissions. The new heat exchanger for house 1 is not listed in the permit as a point source emission. This can be rectified in permit variation the next time there is a need to vary the permit for other reasons, so will not be recorded as a breach*
- *Permit condition 3.3 – Fugitive emissions: drainage management. The drainage for the new heat exchangers was not on the drainage plan. This needs to be updated and provided that a copy of the amended plans are sent to me sent to me, this will not be recorded as a breach.*

Your farm will continue to remain in the scheme for the next scheme year beginning on 1 April 2014.

Please contact me, if you have any questions about this letter.

Yours sincerely

Christopher Gardener
