

Environment Agency Permitting decisions

Standard Rule Permit

We have decided to issue the variation for Plot 57 Brynmenyn Industrial Estate operated by ACD Skips Limited.

The permit number is EPR/PP3094FA

We consider in reaching that decision we have taken into account all relevant considerations and legal requirements and that the permit will ensure that the appropriate level of environment protection is provided.

Purpose of this document

This decision document:

- explains how the application has been determined
- provides a record of the decision-making process
- shows how all relevant factors have been taken into account.

Structure of this document

- Annex 1 the decision check list

Annex 1: decision checklist

This checklist should be read in conjunction with the Duly Making checklist.

Activity	Justification / Detail	Determination criteria met	
		Yes	N/A
Receipt of submission			
Standard rules criteria met	The application meets the criteria for the standard rules identified in Part B of the application form.	✓	
Advertising			
Responses to web publicising (installation rule sets only)	The responses to web publicising (Annex 2) were taken into account in the decision. The decision was taken in accordance with our guidance.		✓
The site			
Extent of the site of the facility (new applications and variations that increase permitted area only)	The operator has provided a plan which we consider is satisfactory, showing the extent of the site of the facility. A plan is included in the permit and the operator is required to carry on the permitted activities within the site boundary.		✓
Planning permission (new applications for relevant waste operations and relevant mining waste operations only – not mobile plant)	We are satisfied that planning permission is in place and it is appropriate for the relevant waste operation(s) applied for.		✓
Waste Management Plan (mining waste only)	The operator has provided a plan which we consider is satisfactory.		✓
Deposit for recovery (relevant rule sets only)	We have agreed that the activity is deposit of waste for recovery.		✓
Operator competence			
Technical competence (new applications for relevant waste operations only)	Technical competency is required for activities permitted in the standard rule set.		✓
Relevant Convictions (new applications for installations, waste operations and relevant mining waste operations only)	The National Enforcement Database has been checked to ensure that all relevant convictions have been declared.		✓
Financial provision (new applications for installations, waste operations and mining waste operations only)	There is no known reason to consider that the operator will not be financially able to comply with the standard rules. The decision was taken in accordance with RGN 5 on Operator Competence.		✓
