### **Introductory note**

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

This variation allows the operator to accept and store food waste and green waste prior to it being sent for onward recovery. This waste transfer activity is in addition to the in-vessel composting activity carried out on site. There are no other changes to the permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
