Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
A1 - Specified by permit	A	
B1 - Infrastructure - Engineering for prevention and control of emissions	A

EPR/YB3897TF - Ffridd Rasmus Transfer Station

Pre-arranged site inspection carried out by Environment Officer Rhys Thomas. Accompanied on site by Steven Edwards and Susan Francis of Gwynedd Council. Main purpose of visit was for site Regulatory officer to familiarise himself with operations on site.

Discussions took place during the visit regarding current and future operations on site and the arrangements in place with the permits at the Civic Amenity Site, Transfer Station building and In Vessel Composting Facility. Operations at this part of site are currently covered by three separate permits. The In Vessel Composting facility has not been operational for several years and this permit as it stands is no longer required. The operator wishes to utilize the IVC building and associated outdoor storage areas for other storage and waste transfer purposes. Extending the boundary of the Civic Amenity site/ Area 2 Permit was one of the possible options discussed. Guidance will be sought from the NRW permitting team and further advice will be provided with regards to the options available for these three permits in due course.

During the visit the Transfer station building was inspected. There was a small amount of residual waste stored at the front end of the building and waste was being received here at time of inspection. Activities were not giving rise to odour issues outside the building. The mixed recycling area of the building was empty at time of inspection. Paper/card was stored at the back of the building. The building was tidy and activities were being carried out in line with permit conditions.

If you would like to discuss anything further please contact Rhys Thomas on 03000 65 3765, rhys.thomas@cyfoethnaturiolcymru.gov.uk

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
