## Introductory note

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation is the result of an Environment Agency led permit review project across Wales. As part of our statutory duties we aim to ensure that permit conditions are fit for purpose and meet statutory requirements.

As part of modernising and updating this permit, the recovery (R) and disposal (D) codes and a list of site specific waste codes from the European Waste Catalogue (EWC) have been referenced.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

| Status log of the permit                 |                     |  |
|--|---------------------|--|
