Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
--	--------------	-----------------------

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

I was pleased to see the volume of waste has been reduced on site. Although the number of tyres was within that permitted, you have agreed to remove the tyres as a priority.

There were approximately 4 vehicles on site waiting to be depolluted. The batteries of all vehicles had been removed to reduce risk of fire.

Hazardous Waste Producer

You must register your premises where you produce or hold more than 500kg of hazardous waste in a year. The registration lasts 12 months. You can register on our website by searching for 'register as a hazardous waste producer' by using the link below or by calling our Customer Contact Centre on 03000 653000.

Please contact me when the application has been completed

Waste Exemptions

I note your registrations of T19 and U5 exemptions have expired. These exemptions need to be re-registered every 3 years if you wish to continue with the activity. Please find information regarding exemptions and how to register them, see NRW website and search waste exemptions.

Duty of Care

A waste transfer note and a hazardous waste consignment note was supplied for wastes removed from site in 2016.

Waste Carrier registration

Persons transporting waste must be registered as waste carriers. To collect metal or scrap vehicles you would need to register an upper tier waste carrier. Further information can be found on NRW website searching for register as a waste carrier or following the link below.

You have registered your site with Pembrokeshire County Council ref: PEMBS/SMS001

Continuing Competence

The Waste Management Industry continues to develop as new legislation, technologies and techniques are introduced. To ensure knowledge and skills keep pace with these changes there is a continuing competence requirement that ensures waste operators understand changes within the waste industry. This is demonstrated by technically competent operators passing an assessment every 2 years. Your WAMITAB qualification has expired.

Please contact WAMITAB to arrange placement on the continuing competency scheme.

For more information regarding the continuing competence scheme please follow the WAMITAB link below:

EPR Compliance Assessment Report

**Report ID:
CAR_NRW0031844**

This form will report compliance with your permit as determined by an NRW officer

Site	Jensons Metals	Permit Ref	CP3298EV
Operator/Permit holder	James Richard Gaze	Date	04/07/2017

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.

Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories

CCS category	Description	Score
C1	A non-compliance that could have a major environmental effect	60
C2	A non-compliance which could have a significant environmental effect	31
C3	A non-compliance which could have a minor environmental effect	4
C4	A non-compliance which has no potential environmental effect	0.1

Operational Risk Appraisal (Opra) - Compliance assessment findings may affect your Opra score and/or your charges. This score influences the resource we use to assess permit compliance.
