Variation application number

EPR/BP3797SZ/V004

Permit number

EPR/BP3797SZ

Thorncliffe Building Supplies Ltd

Permit number EPR/BP3797SZ

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This is an administrative variation to a tier 3 bespoke environmental permit for a waste transfer station with treatment, a refuse derived fuel (RDF) processing facility and a soil, soil substitutes and aggregates processing facility.

The operator initiated changes made in this variation are as follows:

- one waste type added- end of life tyres (European Waste Catalogue code 16 01 03). This has been restricted to a maximum of 50 tonnes stored on site at any one time. This change has been assessed against additional measures provided in version 1.3 of the Fire Prevention and Risk plan, and have been incorporated into the permit.
- clean segregated recyclables (consisting of glass, baled paper, plastics, plasterboard), asbestos, WEEE, tyres and wood and green waste can now be stored either outside or within a building. Wood and green waste can now be treated either outside or within a building. These changes have been assessed against measures provided as part of the June 2015 variation (V003).

The regulator initiated changes made in this variation are as follows:

- condition 2.4.1 has been amended to refer to the relevant annex of the Waste Electronic Electrical Equipment (WEEE) directive;
- interpretations for “Waste code”, “WEEE directive”, and “Hazardous waste” have been amended to refer to the relevant directives and regulations. Interpretations for “Hazardous property” and “Hazardous substance” have also been added.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Waste Management Licence issued (EAWML 37266)	16/06/05	Original permit issued to Flintshire Waste Management an and Contract Services Ltd.
Transfer determined EPR/BP3797SZ/T001 (formerly EAWML 37266)	15/09/08	Full transfer of permit to Thorncliffe Building Supplies Limited.
Variation determined EPR/BP3797SZ/V002	07/11/08	Variation to add Waste Electronic Electrical Equipment (WEEE) conditions.
Variation determined EPR/BP3797SZ/V003	03/06/15	Varied and consolidated permit issued in modern condition format, which reflects the increased site area, new waste types and increased annual throughput.
Application EPR/BP3797SZ/V004	Duly made 19/08/15	Administrative variation to add one waste code and correct discrepancies in variation V003.
Variation determined EPR/BP3797SZ/V004	23/09/15	Variation issued to Thorncliffe Building Supplies Limited.

End of introductory note

Mold Road
Alltami
Flintshire
Mold
CH7 6LG

to the extent set out in the schedules.

The notice shall take effect from 23 September 2015

Name	Date
Holly Noble	23 September 2015

Authorised on behalf of Natural Resources Wales

Schedule 1

Only conditions 2.4.1, Table S1.1, Table S1.2, Table S2.1 and Schedule 6 have been varied by the consolidated permit EPR/BP3797SZ:

- The following conditions were varied as a result of a Natural Resources Wales initiated variation:
 - o Condition 2.4.1.
 - o Schedule 6- interpretations for “Waste Code”, “WEEE Directive”, “Hazardous Waste”, Hazardous property” and “Hazardous substance”.

- The following conditions were varied as a result of the application made by the operator:
 - o Table S1.1- activity reference A1- change to permitted waste treatment and storage locations.
 - o Table S1.2- incorporated new sections of Fire Prevention and Risk Plan (version 1.3).
 - o Table S2.1- added waste code 16 01 03- end of life tyres.

Schedule 2 – consolidated permit

Consolidated permit issued as a separate document.
