A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

A routine site inspection was undertaken on Thursday 23rd November 2017.

At the time of the inspection there was a very small amount of waste on site, which was contained within the remaining building on site. The site is currently undergoing wide scale restructuring and a new transfer station building is due to be built on site.

No non-compliances were recorded during the inspection. A Fire Prevention and Mitigation Plan has been received for the site. Can you please update this when operations begin and inform me when the building is complete.

Thank you for your time during the inspection.
