Dear Mr. Whistance

**POLLUTION PREVENTION AND CONTROL (ENGLAND & WALES)
REGULATIONS 2000. THE PADDOCKS FARM POULTRY UNIT**

Thank you for your time and co-operation during our visit to the above farm on 8th June 2012 to discuss your permit and carry out an inspection. As you are aware the Environment Agency has a duty to carry out inspections of sites regulated by such permits. I am pleased to say that all aspects of the farm were compliant with the conditions in the permit.

The four yearly reviews for energy, waste, raw materials and water were all looked at and met the requirements set out in the guidance contained in the "How to comply with your environmental permit" document

During the inspection of the following issues were identified :

2.3.6 Export of manure offsite:

In order to comply with this aspect of your permit you should obtain a "letter of agreement" from the farm you are sending the manure to that they will apply the manure in line with the guidelines in the "Code of Good Agricultural Practice" (COGAP). To this end I have enclosed a template for a letter suitable for this purpose which you can personalise for use at your own holding and that of the farm you are exporting manure to .

3.5 Noise Management

There was no noise complaint record sheet available at the time of the visit , but the existing odour complaint sheet could be adapted to cover both ,

Thank you again for your time. If you require any further information regarding this letter or anything we discussed during my visit then please do not hesitate to contact me on the number below.

Yours sincerely

CHRISTOPHER GARDENER
