### Introductory note

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

This Natural Resources Wales (NRW)-initiated variation removes the emission monitoring requirements from the permit following a change in NRW position in relation to monitoring requirements for Tranche B Specified Generators (existing Medium Combustion Plant) that are natural gas generators and have no abatement fitted.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit
