

Mr Matthew Davis
Director
Grays Waste Management Limited
Ecoparc Mon,
Mona Industrial Estate,
Gwalchmai,
Anglesey,
LL65 4RJ

Date: 20 December 2017

Dear Mr Davis,

**Re: Breach of exemption (S2 and T6) criteria (exemption reference: NRW-WME008107)
at Plot 8A, Ecoparc Mon, Mona Industrial Estate, Gwalchmai, Anglesey LL65 4RJ**
Re: De-registration of exemption NRW-WME008107
Re: Breach of Regulation 38(1)(a) of Environmental Permitting Regulations 2016.

I am writing to inform you that as of Tuesday 19 December 2017, the S2 and T6 exemptions (NRW-WME008107) registered at Plot 8A, Ecoparc Mon, Mona Industrial Estate, Gwalchmai, Anglesey have now been de-registered.

Based on the information provided by yourself at a formal interview on 12 December 2017 and other evidence, it indicates you have failed to comply with the exemption criteria over a prolonged period. The breach of exemption criteria namely involves:

S2 exemption

- Breach of storage limit for waste wood (EWC code 20 01 38) – waste stored in excess of 100 tonnes.
- Breach of storage condition for farm plastic (EWC code 02 01 04) – waste stored outside on permeable ground.

T6 exemption

- Non-permitted waste treated – waste wood with EWC code 20 01 38 treated (chipped/shredded).

As the site and the activities no longer benefit from relevant authorisation, you are now required to remove all waste related to the exempted activities from the site. All waste must be taken to sites authorised to accept such waste by a registered waste carrier and compliant duty of care notes (waste transfer notes) must be produced and retained. Please inform us in writing detailing the location(s) you intend to remove the wastes

currently stored on your site to and the date by which this removal will be completed. We will be pleased to receive the information by Friday 12 January 2018.

If you require any further information please contact me.

Yours sincerely,

Mefty Haider
Environment Officer
