Our ref: EPR/PB3490HV/PV/01

Date: 2nd November 2017

Dear Sir/Madam,

Environmental Permitting (England and Wales) Regulations 2016

Environmental Permit EPR/PB3490HV: Unit 41, The Dockyard, Pembroke Dock

Natural Resources Wales (NRW) wishes to notify you of its intention, in exercising its powers under Regulation 20 of the Environmental Permitting (England and Wales) Regulations 2016, to vary conditions of environmental permit EPR/PB3490HV.

A notice of variation, which will be issued to you in due course, will vary permit conditions relating to the storage of waste within the boundary of the permit (defined by Schedule 7 of the amended site plan), specifically Condition 2.1.1 of the permit and the permitted activities specified in Schedule 1 table S1.1 of the permit.

This notice of variation will authorise seasonal storage of waste only, with no storage of waste authorised for the period 1st April to 31st October inclusive in every calendar year.

The reason for this decision is that NRW considers that the operation of this regulated facility involves a risk of serious pollution. In coming to this decision NRW has been informed by advice from our own expert.

NRW's letters to you dated 10th August and 22nd September 2017 set out the reasons why in NRW's opinion the risk of serious pollution exists, and the reasoning for NRW considering that the submissions made by you under the Regulation 37 Notice dated 8th May 2017 (now withdrawn) do not remove the risk of serious pollution.

These letters provided further opportunity for you to submit to NRW the evidence of any assessment and analysis carried out, which support the changes made to the Pest Management Plan (PMP) and Odour Management Plan (OMP) and effectiveness of those changes. In the opinion of NRW your submissions have not provided any evidential basis for your conclusions.

You stated to NRW in writing that you received advice from your own expert. However, you have chosen not to share this or the evidence supporting it with NRW. You extended, in your most recent letter to NRW, an invitation to meet to discuss a resolution to the current position. NRW is fully committed to working with operators to support business and achieve full compliance. However, it would in NRW's opinion be more beneficial to meet with you once you have submitted the required evidence as detailed previously.

It would be preferable for the variation notice to be issued with your agreement. Further to this letter, NRW intends to share with you the full content of the variation notice ahead of NRW formally issuing this notice. Whilst NRW is not legally obliged to do so, this will provide you with opportunity to make comment and a further opportunity to submit the required information as detailed in previous correspondence and summarised above.

Yours faithfully

Liane Bacon-Weekes
Waste Regulation Team (Southwest)

In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) Order 2012.

You should note that the Natural Resources Body for Wales has been formed by bringing together the Countryside Council for Wales, Forestry Commission Wales and Environment Agency Wales. The Natural Resources Body for Wales has been empowered to exercise Welsh devolved functions since 1st April 2013 and has, generally, taken over the responsibilities of the Countryside Council for Wales, the Forestry Commissioners and the Environment Agency in Wales.
