| 2SE.4     | 249400           | 361960 | LL55 2SE  | Waunfawr   | 130                             | 538                           | Plas Treflan inc. Garden Villa and Gamekeeper's Cottage         | High                     | View of existing quarry is limited to that of vegetation established on quarry screen bund. A small block of woodland has been retained to interrupt views directly south-west of this location (formerly the site of Treflan-isaf). Field boundaries with mature trees have been retained all around this property and its access road to block out views of nearby Peblig Industrial Park and A4085 Waunfawr Rd.  | Medium                 | Medium                  | No change.   | None                        | n/a                       | n/a                     | None                           | No change          | No change          |
| 2TH.2     | 249405           | 361030 | LL55 2TH  | Bontnewydd | 320                             | 583                           | Llain Meddygon  | Medium                   | Located on the ridge between Caeathro and Bontnewydd, views of the existing quarry may be available from first floor rooms. View towards Caernarfon is partially interrupted by field boundaries with mature trees.   | Medium                 | Medium                  | Glimpses of vehicles using internal haul roads may be visible form first floor rooms. Farmyard buildings would interrupt views northward from the dwelling and it's likely that views of the quarry's internal layout would be screened by woodland elsewhere.   | None                        | n/a                       | n/a                     | None                           | No change          | No change          |
| 2TD.3     | 249555           | 361245 | LL55 2TD  | Bontnewydd | 240                             | 540                           | Bryn Mair and Maes Y Coed                                       | High                     | View of existing quarry is interrupted by a significant depth of young woodland. Views of Caernarfon are likely to be possible from first floor rooms which may overlook the woodland.  | Medium                 | Medium                  | Views of proposed works would be interrupted by vegetation.  | None                        | n/a                       | n/a                     | None                           | No change          | No change          |
| 2TA.1     | 249570           | 361335 | LL55 2TA  | Waunfawr   | 165                             | 514                           | Bryn Eglwys   | High                     | This property occupies a position on the ridge between Caeathro and Bontnewydd and the outdoor space associated with it shares a boundary with the existing quarry. A view of the clay pit's interior and brickworks site is available though filtered by vegetation. Mature trees with relatively clear stems enable glimpses below the canopy layer. A significant depth of young woodland has been established to the north-western section of the property which does interrupt the view. | Medium                 | Medium                  | Glimpses of vehicles using internal haul roads may be visible from first floor rooms and outdoor spaces. Also activities within the site compound area would be visible.   | Moderate                    | Short term                | Reversible              | Minor -                        | Negligible adverse | Negligible adverse |
| 2TA.2     | 249645           | 361375 | LL55 2TA  | Waunfawr   | 240                             | 574                           | Hafod Wen and Ger Y Twr   | Medium                   | Located on a ridge line views from these single storey dwellings are largely interrupted by vegetation which forms a boundary to garden spaces.   | Medium                 | Medium                  | It's unlikely that the proposed development would be visible from this location due to the intervening surface features.   | None                        | n/a                       | n/a                     | None                           | No change          | No change          |
| 2SG.1     | 249655           | 361770 | LL55 2SG  | Waunfawr   | 180                             | 618                           | Bryn Eden   | High                     | This property is located on the northern side of a small hill in between Caeathro and Caernarfon. The property overlooks ground to the west including the Peblig industrial area. The ground level is slightly higher than that of Llanbeblig Church so a view of a wide are of Caernarfon is available. Views of the existing quarry are indirect and filtered by some mature trees.   | Medium                 | Medium                  | No change.   | None                        | n/a                       | n/a                     | None                           | No change          | No change          |
| 2TA.3     | 249690           | 361430 | LL55 2TA  | Waunfawr   | 245                             | 607                           | Penrhos, Penrhos Cottage and Annexe                             | Medium                   | Located on a ridge line, the view of the existing quarry from this location is largely interrupted by vegetation within outdoor garden spaces. The shape of the clay pit suggests that there would be a view to the brickworks site, but field boundaries consisting of mature trees interrupt the view.  | Medium                 | Medium                  | The ZTV suggests that the site compound area would be visible from this location. The view may be possible but is likely to be filtered by mature trees along the property boundary and within the garden. Views of the site compound area would not be available from lower elevations within the garden, but some activity of vehicles using the temporary haul road during Operation phase may be noticeable. | Minor                       | Short term                | Reversible              | None                           | No change          | No change          |
| 2TB.1     | 249700           | 361155 | LL55 2TB  | Waunfawr   | 420                             | 711                           | Llwyn Alice   | Medium                   | This property lies on the south-eastern side of the ridge which runs between Caeathro and Bontnewydd. There are no views of the existing quarry.  | Medium                 | Medium                  | No change.   | None                        | n/a                       | n/a                     | None                           | No change          | No change          |
| 2TA.4     | 249705           | 361390 | LL55 2TA  | Waunfawr   | 300                             | 629                           | Cefn Rhos Isaf, Gwêl Y Grug, Cefn Rhos, Tyn Y Coed, Garreg Lwyd | Medium                   | This cluster of properties lies close to the ridge but buildings on the opposite side of the road interrupt all views north-westward. Properties have wide views of Snowdonia and foothills to south-east.  | Medium                 | Medium                  | No change.   | None                        | n/a                       | n/a                     | None                           | No change          | No change          |
| 2SH.1     | 249730           | 362137 | LL55 2SH  | Caernarfon | 375                             | 889                           | Chalets, Glan Gwna Holiday Park, Caernarfon                     | Medium                   | An area which caters for approximately 80 static caravan/chalet units separated from the main part of the holiday park by the river Seiont. The area is low lying and surrounded by mature trees.
