Dear Mr Gareth

MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING

LICENCE FOR COASTAL DEFENCE SCHEME AT HIRAEI

LICENCE NUMBER: CML2167

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, submitted 8 December 2022 for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence CML2167 and its conditions.

Advisory Note

Marine Licence, CML2167, constitutes a statutory consent; therefore the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence CML2167 carefully, in particular the need to advise Welsh Government Marine Enforcement Officers of the commencement of works within 10 days prior to work starting.

Marine Licence, CML2167 is solely granted for the work to be undertaken at Hiraei, Bangor; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

The development will generate what is termed as controlled waste. This waste should only be disposed of to sites which can prove that they are registered as exempt, or licensed under the Environmental Permitting Regulations. There is a legal requirement (Duty of Care requirements of Section 34 the Environmental Protection Act 1990) on the site owner, demolition contractor etc to ensure that the re-use or disposal of this waste is appropriate and complies with the Environmental Permitting Regulations. The Duty of Care requirements also mean that appropriate Waste Transfer Notes are produced and kept.

Inappropriate disposal will result in enforcement action being taken against all those involved in the disposal of the waste.

We would encourage further dialogue between NRW Asset Management Team and Gwynedd council (as Risk management authorities) in order to agree a set procedure for the operation of opening/closing the flood gates/stop logs during construction.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.
