Dear Mr Whittal-Williams

Compliance Assessment Report – Upper Triley
- the Environmental Permitting (England and Wales) Regulations 2007
- the Control of Pollution (Silage, Slurry, and Agricultural Fuel Oil) Regulations

Thank you for taking part in the inspection on 29th September 2009 at Upper Triley.

During this inspection, I noticed that there was an area of non-compliance in relation to the above regulations that apply to your farm. I list them below together with the actions you need to take.

Storage of agricultural fuel oils
Section 2.3.2 of your permit requires the operator to bund the Agricultural fuel oil storage facilities.
Action required – ensure that the tank is fully bunded by 30th November 2009.

Whilst checking through your file I noticed that we have not received the documents as specified in the Improvement Programme.

9.1 Provide the Agency with a copy of the reviewed emergency plan
9.2 Undertake an audit of water efficiency and report the findings to the Agency
9.4 Produce an odour management plan

Action required – ensure that the above information is sent to the Agency by 30th November 2009.
