Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an operator led variation to vary from a tier 2 standard rule permit (SR2008 No3- household, commercial and industrial waste transfer station with treatment) to a tier 3 bespoke permit for a non-hazardous waste transfer station with treatment and a waste derived fuels production facility (including the production of refuse derived fuel (RDF), solid recovered fuel (SRF) and biomass).

All conditions of the standard rule permit have been deleted and replaced with bespoke conditions.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
