Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
C2 - General Management - Management system and operating procedures	C3	1.1.1 (a)
D1 - Incident Management - Site security	A	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.
A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,
O = Ongoing non-compliance, not scored.

Number of breaches recorded	1	Total compliance score (see section 5 for scoring scheme)	4
------------------------------------	----------	---	----------

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Visit report/comments:

This was a routine site inspection carried out by Rachel Twiss as the recently appointed regulating officer for the site. Steven Andrew of Fore Golf and a colleague were present at the time of the inspection. The weather was fine and dry.

Observations:

The site was secure. This was the first site inspection since the site had last accepted waste material in October 2014. The ground was quite uneven and it was noticeable that the grass seed hadn't taken particularly well. There were a lot of large concrete lumps visible in the ground, particularly around the boundary, some plastic contaminants and some standing water due to drainage issues. The restoration standards as outlined in the Waste Recovery Plan have not been achieved and Steven is liaising with the contractor Hollingsworth Bros to address these issues.

During my inspection the following breaches were observed:

C2 - Management System and operating procedures - CCS score C3

This breach is in relation to condition 1.1.1(a) of your permit which states that the operator shall operate the activities in accordance with a written management system.

The drainage requirements as outlined have not been met as there is pooling of water on site.

Within your written management system the restoration phase is outlined, but this has not been completed to a good standard. I am aware that you are in discussions with the contractor and would appreciate being kept informed of progress please.

We also discussed the possibility of surrendering the permit and I have since sent through the relevant information and links relating to this. Please let me know if I can be of further assistance.

Many thanks for your time on site.

regards

Rachel Twiss - 0300 065 3894

This form will report compliance with your permit as determined by an NRW officer

Site	Foregolf Golf Course & Driving Range	Permit Ref	QP3695VB
Operator/Permit holder	Fore Golf Discount (Wrexham) Ltd	Date	27/06/2016

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

In respect of the above non-compliance you have been issued with a warning. At present we do not intend to take further enforcement action. This does not preclude us from taking additional enforcement action if further relevant information comes to light or offences continue.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			
C2	C3	Liaise with the contractor to address finished quality of the ground, reseeding, drainage issues and removal of contaminants such as plastic piping etc seen during this inspection.	02/09/2016

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
