Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

2016 Waste Return Review

Condition 4.2.2 of your permit (EPR-GP3398VE) states that within one month of the end of each year, the operator shall submit to Natural Resources Wales using the form made available for the purpose, the information specified on the form relating to the site and the waste accepted and removed from it during the previous year. Unfortunately we have not received the 2016 annual waste returns. This is a breach of condition 4.2.2 of your permit. As a direct result of this breach a CCS score 4 has been applied. I have attached a copy of the latest waste return form for your use.

You are required to submit the missing 2016 annual waste returns to waste.returns@cyfoethnaturiolcymru.gov.uk no later than Friday 12th May 2017. You are also required to implement a management system by the 12th May 2017 to prevent this breach of permit occurring again in the future.
