The purpose of the compliance visit was to determine how much waste has been removed since the previous inspection on the 26/5/2016. Little progress has been made to remove waste from the site, although filing cabinets from the offices were being removed during our inspection.

Due to the poor performance we have served a regulation 36 notice to comply with your permit. It is an offence not to comply with this notice. Scores for any breach of condition that is subject to the regulation 36 Notice will be suspended and will not count towards your compliance rating. If you fail to comply with the notice the scores will be unsuspended and the scores will count toward your compliance rating. We are assessing what enforcement action to take following this inspection, which may include prosecution. If you intend to recommence waste treatment at the site please contact me before importing waste as I will need to inspect the building to ensure repairs have been carried out.
