

LOVATT BROTHERS PERMIT TRANSFER APPLICATION
DOCUMENT CEC/LB/PERMIT TRANSFER
JANUARY 2019

1.) BACKGROUND

Lovatt Brothers operate a scrap metal and waste transfer facility at Goetre Villa, Abermule, Montgomery Powys, SY15 6NW under an Environmental permit – Ref BP 3995CY. The current permit is issued to a partnership and this application is to transfer the permit to a limited company, which has recently been set up as Lovatt Brothers Limited.

As such there will be no change in the management or persons involved in controlling the site. Below is the existing management structure and the structure when the permit when the company holds the permit. The transfer is to cover the whole of the site and all of the currently permitted activities.

Existing Structure

There are 3 partners:-

Michael Lovatt

Christopher Lovatt

Darren Lovatt, who also acts as the Technically Competent Manager

New Structure

Michael Lovatt – Director

Christopher Lovatt – Director

In addition there are 4 shareholders :-

Michael Lovatt

Christopher Lovatt

Darren Lovatt

Roger Lovatt

The management of the site will stay the same and the same management techniques will be employed.

2.) Environmental Management System Summary

Lovatt Brothers Environmental Management System (EMS) is a set of processes and practices that enables the company to reduce its environmental impacts and increase its operating efficiency.

The Environmental Management System (EMS) is a framework that helps the company achieve its environmental goals through consistent control of its operations. The assumption is that this increased control will improve the environmental performance of the business.

The EMS will help Lovatt Brothers address its regulatory demands in a systematic and cost-effective manner. This proactive approach can help reduce the risk of non-compliance and improve environmental practices.

Basic Elements of the EMS:

- Analyzing the company's environmental impacts and legal requirements
- Establishing programs to control and monitoring environmental impacts
- Ensuring employees' environmental awareness and competence
- Reviewing progress of the EMS and making improvements

The EMS will be regularly reviewed by the site management team and will be amended when necessary to take account of site activities including any incidents/accidents, complaints and near misses.

The Environmental Management System includes the following documents :

- Environmental Policy Statement
- Key Environmental legislation
- Risk Assessment
- Accident / Pollution Management Plan
- Improvement Action Plan
- Procedure Documents
- How to Comply with Your Environmental Permit
