### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This facility treats and recovers edible oils and fats and this variation is to increase the annual throughput of waste accepted at the site from 9000 to 25,000 tonnes.

There are no other changes to existing permit conditions. Burning of wastes is not permitted either in the open, inside buildings or in any form of incinerator. There are no point source emissions from the activities on site.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
