Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This administrative variation is to add waste codes 17 06 01, 17 06 05 and 17 08 02 to the permit. These additional waste types do not change the nature of the activity or increase risk at the site, based on waste types already accepted and existing permit condition requirements.

The site address as it appears on this notice has been amended from that specified in the original permit, to correct errors and reflect the current address.

There are no other changes to the permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
