This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

On the 19th of October, environment officer Nessa Dearle completed a site visit in relation to recent noise reports received by the NRW. Waste was being accepted and sorted at the time of inspection.

Thank you for taking the time to speak to me on site. As discussed, the working plan for Gill Skips is currently outdated. Gill Skips will need to develop a new environmental management system (EMS), including adequate measures to manage noise on site. As discussed, NRW requests that Gill Skips provide a draft of this EMS document by the 20th of November.
