Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This is an operator led variation of a tier 3 bespoke permit for a non-hazardous waste transfer station to:

- Increase annual throughput to 50,875 tonnes.
- Add the ability to bulk residual household waste in a building, and bulk green waste on an impermeable surface with sealed drainage.
- Add EWC 20 02 01 (biodegradable waste).

A regulator led variation has been carried out at the same time to correct errors in the original permit.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
