Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

The applicant has applied to add two additional waste codes to the permit to allow the acceptance of non-hazardous Waste Electrical and Electronic Equipment (WEEE). The WEEE will be bulked up and stored at the site pending removal and treatment at another suitably permitted facility. For clarity, the applicant has also applied to update the list of permitted waste types in the permit, from those previously broadly described in Schedule B, to appropriate waste codes from the List of Wastes (Wales) Regulations 2005.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
