Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
--	--------------	-----------------------

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Officers Jonathan LEE, James MALATYNSKI and Lara MOGGRIDGE attended J Pesci & Sons Ltd at Wernddu Works, Caerphilly, CF83 3DA on Wednesday 11th April at 10:45. It was raining and overcast at the time of inspection. Met and spoke with David Pesci.

The visit was made to complete an End of Life Vehicle Depollution Audit checklist. The operator David Pesci used an ELV (registration plate X117 BAE) and demonstrated a complete depollution of end of life vehicle. The process is completed entirely on an impermeable surface. It was noted that the operator had processed 43 vehicles in the last year.

Battery was removed first and stored in a watertight box. The lid to the storage box was slightly loose and had been letting some water, a verbal recommendation to the operator was made that the lid should be more secure so not to let rainwater in. Batteries are then transported to a recycling plant in Ebbw Vale.

Contaminated oils, fuels and fluids were removed appropriately and stored in labelled tanks which are subsequently collected by Pureclean. Fluids were either drained from beneath the vehicle into tanks or via tailored suction pipes from the top of the vehicle. Oil filters were removed and allowed to drain overnight next to the interceptor. These are then stored within a watertight drum.

Catalytic converters are removed and sold to either SIMS metal in Newport or Fordpad, Swansea.

Approximately 40 wheels/tyres on site at time of visit, it was noted that there are typically no more than 50 tyres on site.

Drain plugs were replaced/a mouldable putty was applied to holes made where fluids had been drained as appropriate.

Thank you for your time and taking us through a vehicle depollution demonstration. I look forward to visiting again soon to complete a wider inspection of the site and its activities.

If you have any issues with this report or need to get in touch, please now contact Jonathan Lee on jonathan.lee@cyfoethnaturiolcymru.gov.uk or 0300 065 3908.

Thank you.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.

Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
