Our ref: LAS EWC Code Addition Permit Variation EA Letter 02 11 12.doc

Dear Mr Ellar

Request to amend current Permitted Waste Types List of the Working Plan for LAS Recycling Ltd under the Permit Number EPR/JP3698FK.

I am writing following your recent letter dated 16th October 2012 regarding an addition to our permitted wastes under Permit Number EPR/JP3698FK. We perceive that the addition of the permitted wastes as specified in the list attached shall have no further risks posed to human health and the environment. All new additions will be treated by material type in exactly the same way as existing materials on our Permit and as per our Working Plan.

In fact, we believe that having these additions will result in an environmental benefit due to the carbon footprint reduction based on the current transportation of individual low volume waste streams taken directly to disposal routes. Whereas this addition will allow us in the short term to bring small volume wastes into the Transfer Station at Lampeter for further bulking up and transferring to an authorised disposal route.

If you wish to discuss the request further, then please contact me on the number below.

Yours sincerely

Keith Evans
