Application number: **EPR/LB3193HC/A001**

Natural Resources Wales, in exercise of its powers under paragraph 4 of Part 1 of Schedule 5 of the above Regulations, requires you to provide the information detailed in the attached schedule. The information is required in order to determine your application for a permit, duly made as of 28 January 2015. The information requested should be sent to the following address by 23 March2015.

Information should be sent to:

Ella Williams – Permitting Officer (Waste)

Email: ella.williams@cyfoethnaturiolcymru.gov.uk
Address: Wales Permitting Centre, Natural Resources Wales, Cambria House, 29 Newport Road, Cardiff , CF24 0TP

Name	Date
Ella Williams	**02/03/15**

Authorised on behalf of Natural Resources Wales

Schedule

Waste Recovery Plan

1. Please submit a 3rd version of your Waste Recovery Plan (WRP) amended to reflect the further information required in "The Recovery v Disposal Advice record Version 1" attached to this notice. The WRP must be in line with RGN13- "Defining waste recovery – permanent deposit of waste on land".

Site Specific Risk Assessment

2. Please provide a site specific risk assessment that:
   - Identifies potential risks that your activity may present to the environment;
   - Assesses potentially significant risks in more detail if needed; and
   - Chooses the right control measures.

The risk assessment should include, but not be limited to, the risk to the location criteria for Standard Rules Permit "SR2010No9: use of waste for reclamation, restoration or improvement of land" that cannot be met, namely:

a. Assessing the two watercourses that are located to the east and west of the infill areas respectively, that are within 10 metres of the site boundary as identified in the site permit plan provided to NRW on 23/02/15 titled "ESID 1 - version 2".

The risk assessment should also address the potential risk of these watercourses draining into the Special Area of Conservation (SAC) "River Wye".

The risk assessment must be site specific and should be completed to the standard of that set in Horizontal Guidance Note H1: Environmental risk assessment for permits.

3. Provide a copy of the "Surface Water Bund Plan" that is referred to in the current risk assessment, if it is still be included in the amended risk assessment.
