Permit being assessed: BN0072501
 For: Red Roses WwTW, held by DWR CYMRU CYFYNGEDIG
 At: Red Roses, Whitland, SA34 0PJ.

Type of assessment carried out: Report/Data Review, Reason: Other.
 On 24/02/2022.

Parts of permit assessed: Table S3.1

NRW Lead Officer: Pratiksha Kardile.

Report sent to: Rod Thomas, Senior Officer, on 30/03/2022.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-B1 - Operations - Permitted activities	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Red Roses STW failure was reported on 9th March 2022. According to report, OSM sample taken on 24th February, 2022 failed to meet the permit limits for total suspended solids (TSS).

Having checked the OSM 'EXCEPTIONAL CIRCUMSTANCES' report, we have accepted the third party claim for exceeding the permit limits for TSS.

The reasons given for failure were as follows:

1. An illegal discharge from a construction site of Caravans resulted in high levels of inert suspended solids entering the treatment process that were carried through the

plant into the final effluent.

Therefore, on this occasion NRW will not be requesting or taking any further action regarding this singular breach and the compliance data set will be amended accordingly and the failure will not be recorded.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
