Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
A1 - Specified by permit	A	
B1 - Infrastructure - Engineering for prevention and control of emissions	A	
B3 - Infrastructure - Site drainage engineering (clean and foul)	A

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,

O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- The part(s) of the permit that were assessed (eg. Maintenance, training, combustion plant, etc)
- Where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances
- Information on the compliance score accrued inc.
- Details of advice given
- Any other areas of concern
- Any actions requested
- Any examples of good practice
- A reference to photos taken

Officer Alex BOWDER attended Caerphilly Skip Hire (CWS) at 12:30 on Monday 4th December 2017 to carry out a routine inspection of permit **EPR-EP3394LG**. The weather was mild and slightly wet at the time of visit. Met with business representative Mr Alun Pitten and walked around the yard.

ACTIONS FROM LAST CAR FORM

1. I was pleased to see that the pot holes at the front of yard have been repaired. This will no doubt help with overall site infrastructure and vehicle maintenance.

2. Update the site's Environment Management System - As far as we're aware there has been no movement on this – please see comments from the last CAR form dated **Thursday 27th July 2017** and send through your amended plan to NRW.

Deadline: Please complete this by February 4th 2018

3. Fire plan – this section required expansion and to include the lower yard activities. Fire Prevention guidance created by the Fire Service has been attached for you to reference when drafting your plan.

Deadline: Please complete this by February 4th 2018

GENERAL OBSERVATIONS

Not a lot of changes since my last inspection. Limited litter seen between skips on site which was good to see.

The site didn't have any surface water running through the site as it has in past winter months which is an improvement.

The picking station and trommel was functioning efficiently and was all under cover. Waste piles adequately separated.

Spoke about comments from the Health and Safety Executive on site practices. No waste was being stored waste at the bottom yard - only empty skips.

INFRASTRUCTURE - CONCRETING OF THE YARD

Work is said to be carried out at the start of the new year. This will see a new drainage system installed with an improved interceptor and re-profiling the yard to direct surface water run-off towards the system. Breaches of permit conditions for water pooling in the yard are still being suspended to allow completion of

work.

WASTE RETURN DOCUMENTS

Waste returns are being submitted quarterly within the grace period by the business. Please continue to keep this good habit.

It is good that the site has taken on board NRW comments this past year. Please continue this in 2018. I look forward to working with the site in the new year.

If you have any issues with this report please contact Alex Bowder on 0300 065 3394 or alex.bowder@naturalresourceswales.gov.uk

Thank you.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.
Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
