### **Introductory note**

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

This is an operator led administrative variation to add packaging waste codes to the list of permitted wastes. The new waste types are; 15 01 01, 15 01 02, 15 01 03, 15 01 04, 15 01 05, 15 01 06, 15 01 07 and 15 01 09.

The additional waste types have been assessed and can be added to the permit as an administrative variation because they are in line with waste types already permitted and do not alter the nature of the activity or increase environmental risk.

No other changes to the permit have been made.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
