

A06 Non-technical summary

Vastre Depot

Grid Reference: SO 1158391445

Description of the Activities

A11 – Household, commercial and industrial waste transfer station

The permit variation will allow Powys County Council to bulk recyclates and compact materials including mixed plastics, aluminium, ferrous cans, paper and cardboard on site, therefore avoiding the need to transport recyclate long distances on a daily basis. This recyclate will be non-hazardous recyclate from kerbside collection rounds, along with non-hazardous recyclate from community recycling sites and non-hazardous commercial recyclate.

The following recyclate streams will be unloaded into skips, or bays before being bulked and/or compacted where appropriate, prior to onward transfer:

- Mixed plastics, aluminium and ferrous cans
- Paper and cardboard
- Mixed glass
- Waste electrical and electronic equipment
- Food waste

The permit variation adds waste electrical and electronic equipment; food waste and compaction facilities.
