## Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

|---|---|---|
| A1 - Specified by permit | A | |
| C3 - General Management - Materials acceptance | A | |
| C4 - General Management - Storage, handling labelling and Segregation | A | |

**KEY**: See Section 5 for breach categories, suspended scores will be indicated as such.

Tony Bruten attended the site and met with a site manager Mr D Joyce.

The visit was to ensure compliance with the Environmental Permit.

There were two separate areas identified each being used by 2 separate companies for export of waste.

One area was being used by Stobbards haulage to temporarily store chipped wood for export, there was approximately 1500 tonnes in this area which was being stored as per fire regulations with regards to stockpile sizes and distance between piles.

The second area was being used by Violia to store chipped waste wood, there was only one small stockpile being 1000 tonnes or less.

There were no breaches identified at the time of inspection.
