Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation comprises an operator led variation to include additional treatment and additional waste codes permitted for acceptance on site and a Regulator-initiated variation to add in conditions relating to fire risk mitigation.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
