### **Introductory note**

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the variation of an environmental permit.

This administrative variation is to add waste code 17 04 11 to the permit. This additional waste type does not change the nature of the activity or increase risk at the site, based on waste types already accepted and existing permit condition requirements.

There are no other changes to the permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
