Dear Sir / Madam

13 October 2015

Application for Variation of a Waste Permit

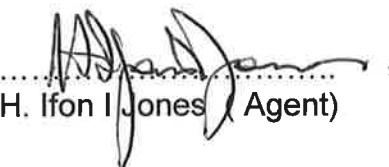

D.I Evans Cyf., Gwrthwynt, Newcastle Emlyn.

Permit Number EPR/ZP3098FC

On behalf of my client D.I Evans Cyf., Gwrthwynt, Beulah Newcastle Emlyn, I submit 5 copies of completed Forms Part A, Part C2 and F1 for the transfer of a waste permit insofar as it is a proposal to add a name to the existing permit without changing any operational matters on the site Permit Number EPR/ZP3098FC.

In a discussion with your officer M/s Holly Noble, I have been advised to apply for the permit transfer to enable the above change to be implemented.

M/s Noble advised that the fee to enable such change to be made is £1,950 but as the variation does not change any site operation, that the person to be added to the permit has no relevant offences (Part C2 question 3a) and the site management system is as currently operational(Part C2 question 3d, the proposed variation is "simple" and that abatement of the fee will be considered.
