# **LLANTRISANT RECYCLING INCIDENT RESPONSE PLAN**

g) The main activities carried out on the site are :-

- The receipt of deliveries of inert wastes comprising of topsoil and subsoil, stone, concrete and other inert materials from demolitions and excavations. Processing and separation of these wastes, by crushing and screening, into saleable products such as capping, sub-bases, topsoil etc for re-use in the construction industry.

h) The objective of this plan is to provide all persons who may be involved in any incident with information on the site and the people responsible for the management of the site and arranging a first response to any unforeseen incident on the site.

g) This original document was produced on 6<sup>th</sup> July 2016 by:-

Jon Waters  
Planabuild Ltd  
3, Laburnum Drive  
Porthcawl  
CF35 5UA  
Telephone 01443 -674935

Copies were distributed on that day to Jonathan Wilson; Tom Prichard; the operators head office and the Environment Agency.

Jon Waters of Planabuild will be responsible for periodic review of this plan and any amendments required as a result of the review.

## **3 Site chemical, product and waste inventory**

The site is expected a maximum quantity of the following materials:-

- |  |                      |
|--|----------------------|
| a) Raw Inert Wastes that are non combustible,<br>comprising of soils, stone, brick and concrete. | 7,500 m <sup>3</sup> |
| b) Processed stone products ranging from dust to 6f2 capping.                                    | 7200 m <sup>3</sup>  |

No chemicals are kept on site.

No oils or fuels are kept on site. Fuel is delivered to site plant by mobile bowser that visits the site daily.

A schedule of actual quantities of materials actually on the site will be kept with this document if type or quantity of materials vary from the above list.

# **LLANTRISANT RECYCLING INCIDENT RESPONSE PLAN**

## **4 Pollution prevention equipment inventory**

A record of any absorbents, mats and any other equipment and materials held on site to deal with pollution incidents together with their location will be appended to the site copy of this document:-
